

Kaizen

Zinc Oxide 39.5% Suspension Concentrate

Contains:-

- Zinc as Zn 39.5% (Zinc Oxide Suspension).

Application:-

- Ideal for foliar spray and drip fertigation. Can be given by broadcasting along with fertilizers in cereal crops.

Benefits:-

- Useful to rapidly clear Zinc deficiencies from crop.
- Kaizen contains an enormous concentration of elemental zinc (700 gms/Liter), which is far more better than other fertilizers like zinc sulphate and chelates. Therefore, it is highly effective at an extremely low dosage.
- Kaizen is highly concentrated liquid zinc formulation designed to satisfy plant's immediate and long-term requirements by foliar application. It is easy to pour and measure, convenient for storage and handling.
- Highly soluble in water and easily available to plant.

Recommendation:-

- Used in all crops much more beneficial for horticulture and cereal crops.

Dose:-

- For foliar spray - 1-2 ml /Liter
- For Drip irrigation - 500 ml /Acer and Broadcasting -500 ml / Acre

Packing:-

- 1 Liter, 500ml and 250ml Packing is available
